Instructions

- 1 Print this page. ***In your printer settings, ensure "Page Scaling" is set to "Actual Size" "100%" or "None."***
- 2 If you have an existing label, line up the edges and match the rounded corner to the one that fits best.

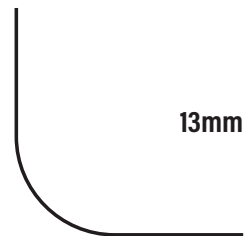

If you're creating a label from scratch, please let us know which corner measurement you'd like on your finished label.

Check your scale!

Place a credit card inside of the outline below.
Make sure the card fits exactly within the outline shape to make sure that you've printed at the correct scale
